Hospitals: Individual Hospitals in the UK: London (A&M)

Archive and manuscript sources in the Wellcome Library

April 2015
The archives and manuscripts collections cover a broad range of subjects dating from the Middle Ages to the 21st century. This is one of a series of thematic guides designed to assist users of the collections to identify material of particular relevance to their research. For more detailed subject searching, you can run keyword or subject searches in the Archives and Manuscripts online catalogue, http://archives.wellcomelibrary.org, from which material can be ordered for consultation in the Rare Materials Room. Hard copy catalogues can be found in the Library’s Rare Materials Room or by request to archs+mss@wellcome.ac.uk.

Hospitals: Individual Hospitals in the UK: London (A&M)

This list excludes medical students’ lecture notes and admission tickets, or testimonials etc of individuals applying for posts. For material on psychiatric hospitals, see resource guide Psychiatry: Institutions.

The Wellcome Library is not an approved place of deposit under the Public Records Act for classes of hospital records designated as public records for permanent retention and such records are not held here. The Wellcome/National Archives Hospital Records Database, http://www.nationalarchives.gov.uk/hospitalrecords/, provides information on the survival and location of hospital records in the UK.
