Tropical Medicine (A&M)

Archive and manuscript sources in the Wellcome Library

September 2014
The archives and manuscripts collections cover a broad range of subjects dating from the Middle Ages to the 21st century. This is one of a series of thematic guides designed to assist users of the collections to identify material of particular relevance to their research. For more detailed subject searching, you can run keyword or subject searches in the Archives and Manuscripts on-line catalogue, http://archives.wellcomelibrary.org, from which material can be ordered for consultation in the Rare Materials Room. Hard copy catalogues can be found in the Library’s Rare Materials Room or by request to archs+mss@wellcome.ac.uk.

Tropical Medicine (A&M)

Material specifically on malaria is listed separately.
