The archives and manuscripts collections cover a broad range of subjects dating from the Middle Ages to the 21st century. This is one of a series of thematic guides designed to assist users of the collections to identify material of particular relevance to their research. For more detailed subject searching, you can run keyword or subject searches in the Archives and Manuscripts on-line catalogue, http://archives.wellcomelibrary.org, from which material can be ordered for consultation in the Rare Materials Room. Hard copy catalogues can be found in the Library’s Rare Materials Room or by request to archs+mss@wellcome.ac.uk.

</table>
Richard Price, British non-conformist minister, radical: letter concerning the birth-rate in Britain’s colonies in North America and the West Indies and referring to questions asked by “Mr. Clarkson”, probably the anti-slavery campaigner Thomas Clarkson, 1786

Rev. George Charles Jenner: appointments as a missionary and Justice of the Peace, Newfoundland, 1794

Sir Benjamin Thompson F.R.S., Count Rumford, American–born inventor: letters to the publishers Cadell and Davies, 1797–8

Benjamin Waterhouse, introducer of Jennerian vaccination to North America: letters and twentieth–century background material, 1800–1 and 1919–49

Benjamin West, artist: signatures. n.d.

George Dillwyn, American Quaker: letter to William Allen F.R.S., London Quaker chemist and philanthropist, discussing poor relief and mentioning the effects of laudanum use, 1800

Lyman Spalding, surgeon and anatomist: exchange of letters with Benjamin Waterhouse concerning the introduction of vaccination to the United States, 1800

George Montagu: copies of extract from Testacea Britannia, New York, 1803, and a letter by ‘Senex (of Albany)’ on Radiant Heat from The National Intelligence, Washington, 1814, 1803–1814

Enoch Tappan, New England: letter to a law student, 1804

Samuel Emlen, American Quaker: letter to William Allen F.R.S., London Quaker chemist and philanthropist, discussing writings of the anti–slavery campaigner Thomas Clarkson and the prospects for abolition in the U.S.A., and mentioning American mutual acquaintances such as the teacher, chemist and philanthropist John Griscom, the brothers George Dillwyn and William Dillwyn (the latter was Emlen’s father–in–law) and “R. Jones”, perhaps the Philadelphia preacher Rebecca Jones, 1806

Nathan Smith, surgeon and physician, professor at Yale: letter to John Coakley Lettsom, 1808

Ship’s surgeon, French: accounts of voyages, including to the West Indies and to New Orleans, 1808–16

James Smithson F.R.S., English founder of Smithsonian Institution, Washington: mentioned in a letter by Sir Joseph Banks, 1809

Benjamin Rush, American physician and philanthropist: receipt cut from a larger document, 1812

New Orleans expedition: volume of medical and topographical sketches by an un–named British military surgeon, including service in the New Orleans expedition of 1815, 1813–15

William Bartram, traveller and ornithologist: copy, made by the polar explorer Edward Sabine, of material on North American birds published by Bartram in 1792 in his Travels through North and South Carolina, 1813

Edward Sabine, Arctic explorer: ornithological notebooks, compiled in the Niagara region, 1814–15; See also William Bartram, above

François André Michaux, French botanist and traveller: letters, including one giving detailed advice on planting acorns to be dispatched from America for various crown properties in France and a list of the seeds of Kentucky, 1817–27 and n.d.
Nicolas Chervin, French physician: collection of professional opinions concerning the contagiousness of yellow fever, received from New York and New Orleans as well as from the West Indies (most of the collection comes from Guadeloupe) and South America, 1817–22  

Agricultural Society, Philadelphia: letter from the vice–president to a member of the Thoûin family, French botanists, 1824  

Dr. Shirley Palmer, British medical writer: letter concerning the forwarding of plants sent to Palmer from the U.S.A, 1824  

Charles Waterton, English traveller and naturalist: letter describing a visit to the United States, 1825  

Missionary Society of the Protestant Episcopal Church, New Brunswick, Canada: manuscript copy of a published depiction of “the most approved toilet”, linking toilet articles to virtues (the best lip salve, for example, is cheerfulness), 1828, copied 1860  

John Torrey, botanist and chemist: letter, 1829  

Joseph Lakanel, former President of the University of Louisiana: letter to Dominique François Arago, French astronomer and politician, describing the United States, n.d.  

Lewis David von Schweinitz, American mycologist and Moravian clergyman: letter to the Danish botanist Dr. Nathaniel Wallich, concerning specimens sent by the East India Company, 1830  

Thomas Say, U.S. conchologist: letter to the British conchologist and artist George Brettingham Sowerby I, 1830  

Benjamin Silliman, physician, chemist and scientific author: letter, 1831  

Horace Evans, American physician: Philadelphia Association for Medical Instruction certificate of attending a year’s course of instruction, signed by the physician Joseph Parrish, the chemist Franklin Bache, the surgeon John Rhea Barton, George B. Moody and the physician, geologist, zoologist and paleontologist Samuel George Morton, 1831  

Thomas Nuttall, English–born American naturalist: letter to his mother and sisters in Yorkshire, concerning his career, 1831  

Edmund Roberts, United States merchant and diplomat: letters, in the papers of John Robert Morrison, Chinese interpreter and Colonial Secretary of the Hong Kong government, concerning the Peacock expedition to Siam and Cochin China led by Roberts, 1832  

Thomas Hodgkin, pathologist and campaigner against slavery, colonialism and the mistreatment of native peoples: see general collection. Particularly relevant in this section are papers on the treatment of Native Americans, with particular reference to the Chippeway (Ojibway); on slavery in the USA and plans to resettle freed slaves in Liberia, including extensive correspondence with Elliot Cresson of the American Colonization Society; Numerous American figures represented in correspondence, chiefly Quakers. See Hodgkin collection catalogue for full details, including index to correspondents  

Samuel Lytler Metcalfe, American physician: letter to his publisher about his work *Caloric: Its mechanical, chemical and vital agencies in the phenomena of nature*, 1842
George Bacon Wood: published volume, *Syllabus of the Course of Lectures on Materia Medica and Pharmacy delivered in the University of Pennsylvania by George B. Wood, M.D.* (published 1844), with manuscript notes interleaved. c.1845

John Thomas Metcalfe, American physician: letter, in French, to the French surgeon Jean Zuléma Amussat, 1845

James Tyrrell Carter Ross, Surgeon and medical officer, British Army in India: commonplace book including account of travels in North America. c.1850–c.1870

Sir Clements Robert Markham, geographer: account of travels in Peru, 1852–3, including journey there from New Brunswick, Canada, through New England and New York, 1845–1915

– Letters, 1865–1913 and n.d.

Samuel Morse, American artist and inventor, telegraph pioneer: letter, signed, to Dominic François Jean Arago, describing a successful test of his telegraph system, 1846

William Middleton Michel, American physiologist and histologist of French extraction: letter concerning his thesis, 1846

Philip Clayborne Beech M.D., Richmond, Virginia: letter to Beech from the English physician and author George Henry Kingsley; matters of American interest discussed in the letter include the writings of Edgar Allan Poe and a mutual acquaintance named Naysmith who has just spent a year in America, 1849

Jeremiah Van Rensselaer, physician and geologist: letter concerning the biography of an unnamed general (probably another member of the influential Van Rensselaer family), n.d.

Mr. Thompson, American marine engineer: report to a French learned society concerning a life-saving apparatus invented by Thompson, n.d. (c.1850s)

Sir Henry Wellcome: Personal Papers: Material on his early years in the USA and on his family and friends there, as well as his interest in the Metlakhata settlement of Native Americans, 1850s–1930s

Thomas D. Müller, Philadelphia professor of surgery: 1 signature, n.d.

Valentine Mott, American pioneer of arterial surgery: letters to Jean Zuléma Amussat, French surgeon. n.d.

Louis François de Pourtalès, American zoologist of Swiss origin: letter to the astronomer William Cranch Bond, concerning Morse telegraph links, and congratulating Bond’s son, 1852

Orlando Williams Wight, lawyer and writer, Newark (N.J.): manuscript of *The Romance of Abelard and Heloise*, philosophical novel, 1852

Dr. Flügel, United States consul–general in Leipzig: letter about autograph collecting to Flügel from Dr. Karl Ludwig Christain Rümker, 1853

James Armstrong Macdonagh, Cunard Company surgeon: journal and observations made on voyage on emigrant ship from Ireland to Quebec, and on subsequent travels in Canada, 1853

Albert Lee Ward, American diplomat and Red Cross Volunteer: letters and papers relating to his service as private secretary to Elihu Benjamin Washburne, US Minister in Paris during the Franco–Prussian War; with related letters and papers of other members of the Ward family, 1854–1921 and n.d.

James Joseph Sylvester, professor of mathematics at University of Virginia, Woolwich Academy, Johns Hopkins University and Oxford University: letters, 1855–84
Henry Piers, British naval surgeon: journal while surgeon on HMS *Satellite* on a voyage to Vancouver Island via the Falkland Islands and the Pacific coasts of Chile and Peru, 1856–7, and while stationed at Vancouver Island, 1857–9, during which British Columbia was declared a British Colony, 1856–9

Arthur Wellington Clah, Tsimshian Native American, member of Metlakahtla settlement on west coast of Canada later transferred to Alaska: journals including notes on his culture and reminiscences; plus writings by Sir Henry Wellcome related to the journals, 1859–c.1920; See also Albert Wellington, below, his son

Henry Augustus Ward, mineralogist and geologist: 3 letters, 1859–66

Edward Jarvis, American physician: facsimile of Jarvis's autograph autobiography, the original held at Harvard as MS. Amer. 541 Jarvis was born in Concord, Mass., and practiced here and in Louisville, Ky.; his dominant interest was in care of the insane. Original item 1860 (date of copy not known)

Emma, Queen of Hawaii: letter by Jane, Lady Franklin, widow of the polar explorer Sir John Franklin, discussing a visit to England by the Queen, n.d.

Matthew Fontaine Maury, American oceanographer: letter to Lieutenant Elie Margollé of the French navy, plus letter by Admiral Robert Fitzroy, hydrographer, explaining that the outbreak of war in America has cut off communication with Maury, 1860–2

Simon Newcomb, American astronomer: autograph review by Newcomb of *Taxation: Its Levy and Expenditure* by the contractor and politician Sir Samuel Morton Peto, c.1866

Sir John Lubbock F.R.S., later 1st Baron Avebury, British banker, Liberal M.P., author of popular science books: letter to B. M. Wright, asking about the provenance of an Easter Island statue and of material from Vancouver Island, 1870

Medical Women’s Federation: Some material on pioneer medical women in USA and Canada; files relating to *Medical Women’s Hospital Fund* support for civilian relief in, also Canadian *Medical Women’s Gift* and *Federation of Medical Women of Canada* assistance during, World War II; MWIA file for International Congress 1966 in Rochester, NY, USA/Niagara Falls, Canada

Edward Tuckerman, professor of botany, Harvard: letter, 1871

Sir Henry Morton Stanley, explorer, born Welsh but emigrated to the United States: letters and associated material, including seating plan for dinner at close of 1891; American lecture tour with map showing towns visited during tour, 1872–1933 and n.d.

John Strong Newberry, American geologist and paleontologist: letter to the English paleontologist Thomas Pallister Parkes, discussing the Carboniferous fossils of Ohio, 1874

James Craig Watson, astronomer: letter, 1877
Joseph Everett Nourse, professor at the Maritime Observatory of the United States: letter concerning his election to the Société de Géographie Commerciale de Paris, 1877

William Fisher Norris, Philadelphia ophthalmologist: letter to his fellow ophthalmologist Wilhelm Stricker, concerning the launching of the *Index Medicus*, 1880

Wellcome Foundation: Materials relating to operations of pharmaceutical firm in USA and Canada, 1880s–1990s

Sir Edward Sharpey–Schafer: Correspondence with colleagues in USA and Canada, 1880s–1930s; visit, 1913

William Williams Keen: Small group of papers of this US surgeon, 1880s–1920s

Physiological Society Additional deposited papers: Microfilms, etc, of papers relating to Professor GR Mines, Department of Physiology, McGill University, Canada, early C20th; also material on American *Physiological Society*, 1880s–1930s

Henry Augustus Rowland, American physicist: letter concerning gratings for spectrum analysis, 1882

"The Mission Field of Metlakahtla": 2 manuscript lectures on "The Mission Field of Metlakahitla", the first covering the period c.1856-1869 and including an account of the initial mission at Fort Simpson, and the second covering the period c.1869-1873, given in 1882 and 1884

Charles Brodie Sewell, British physician: journal of holiday in the United States and Canada: sailing to New York City (paying particular attention when sightseeing to the Brooklyn Bridge), travelling via upstate New York and Niagara to Toronto, then Montréal, Québec, Boston, New York City again, Washington D.C. and back to New York City, 1883

Edmund Duncan Montgomery, physician at German Hospital and Bermondsey Dispensary, London, and demonstrator of morbid anatomy at St. Thomas’s Hospital before emigrating to America and writing on the nature of protoplasm: letter, 1883

Silas Weir Mitchell, Philadelphia physician and author, specialist in nervous disorders: letters, including one to the portrait painter Frank Holl mentioning pictures of Edward Jenner and James Paget, and one to Holl’s widow, c.1887–8 and n.d.

Hobart Amory Hare of Philadelphia: paper awarded the Fothergillian medal by the Medical Society of London, on “The pathology, clinical history and diagnosis of the affections of the mediastinum other than those of the heart and aorta...”, subsequently published under the same title in Philadelphia, 1888

John Monroe Van Vleck, Professor of Mathematics and Astronomy, Wesleyan University: receipts and letter, 1890–1

Sir Arthur Cushny: Correspondence with individuals and institutions in the USA, 1890s–1920s

Sequah: Various papers relating to activities of James Kasper (PA Gordon) on behalf of Sequah Ltd, in USA and Canada, 1890s

Wellcome Historical Medical Museum: Correspondence with individuals and institutions in USA and Canada, including dispersal of collections to various museums, 1890s–1980s

Sereno Watson, curator, Herbarium of Harvard University: letter, 1891

David P. Todd, astronomer: signature, 1892

San Diego: letters relating to a British citizen’s death in a San Diego sanatorium, with ornamental letterhead showing the building, 1892
Thomas Morgan Rotch, American pediatrician: letters, 1 mentioning Sir William Osler, 1895 and n.d.  MS.7559/8–9

Genevieve Tucker, physician, Colorado: letter, 1896  MS.7755/15

Queen’s Nursing Institute: District Nursing Overseas files include one on Victorian Order of Nurses in Canada, 1898; ‘Countries’ files include associations in Canada and USA, 1940s–70s  SA/QNI

Albert Wellington, Tsimshian Native American, member of Metlakahtla settlement, son of Arthur Wellington Clah (see above): memorandum and account book, compiled at various locations in Western Canada, 1900–2  WMS/Amer.141

Walter Reed, American army surgeon, investigator of transmission of yellow fever: photocopied letter to a fellow military surgeon based in Cuba, describing work on yellow fever, 1900  MS.7559/7

Sir W Arbuthnot Lane: Autobiographical material re visits to USA, early C20th  GC/127

John Lancelot Todd, Canadian tropical medicine specialist: material on various diseases, chiefly African but also including work in the Canadian prairies on swamp fever in horses, 1902–20  MSS.4790–4807

Walter Bayne Geikie, Dean of Trinity School of Medicine, Toronto: printed volume with manuscript emendations, comprising Brief History of the Trinity School of Medicine, plus short printed papers relating to his resignation as Dean, 1903  MS.8554

Casper Lavater Redfield, writer on heredity and evolution: letter to the British geneticist William Bateson, asking his opinion of Redfield’s Control of heredity: a study of the genesis of evolution and degeneracy (Chicago, 1903), 1904  MS.7559/6

Burroughs Wellcome & Co: Historic Notes and Canadian Medical Lore, draft version of text later published by Burroughs Wellcome & Co. for 1906 British Medical Association Meeting in Toronto, 1905  MS.8539

Sir Ambrose Thomas Stanton, Canadian tropical medicine specialist: notes and papers, chiefly material on beri–beri compiled whilst in Malaysia, 1905–1922  MSS.4693–4700

George Grey Turner: Correspondence with colleagues in Canada and USA, 1920s–30s, visits, 1906, 1918  PP/GGT

Roy Lee Moodie, American palaeopathologist: papers and correspondence, mainly concerning palaeopathology; various correspondents, especially in the United States, 1907–1934  MSS.5898–5938

Robert Ernest McConnell, specialist in tropical medicine: notebooks on swamp fever in horses, Canada, 1910  MSS.3353–4

Eileen Palmer: File on Edith How–Martyn’s birth control tour of USA, 1936, mostly Hawaii and California; correspondence with birth control campaigners in USA and Canada, 1910s–40s  PP/EPR/C.4, D.2

Howard Dudley King: typescript paper on The Epidemiology of Amoebiasis in the Southern United States. With some pertinent remarks as to the absence of liver abscess in the same regions, 1911  MS.8179

Edward Morrell Holmes, American–born curator of the Museum of the Pharmaceutical Society, London, and author on botany and materia medica: draft papers on the glucoside vanillin and obtaining it from the vanilla pod, on the United States pharmacopoeia, on Brazilian drugs and on yagé, 1914–27  WMS/Amer.145–8

Marie Charlotte Carmichael Stopes: Correspondence with leaders of USA birth control movement, 1915–30s; one file of correspondence with individuals in Canada, 1934; much correspondence from private individuals scattered through ‘ML–GEN’ sequence

Joseph Leidy, naturalist, palaeontologist and biologist, professor at Philadelphia University: memoir of Leidy’s life by the medical historian Fielding Garrison, read at the Medical History Club of Washington D.C, 1916

Sir Thomas Lewis: Files on training of US Medical Officers at Military Hospitals, 1917–8

Louisa Martindale, surgeon: notes of cases etc. made on visit to Baltimore, Rochester, Chicago, Cleveland and Toronto, 1919

– Diary of visit to New York, Hartford (Conn.), Baltimore, Washington, Philadelphia and Chicago, 1924

– Diary of visit to New York, Philadelphia, Canada, Pittsburgh and Florida, 1950

Strangeways Research Laboratory: Files re funding from Rockefeller Foundation USA, 1920s–60s, and correspondence with individuals, organisations and journals in USA and Canada

British Medical Association: Files re American Medical Association and on medical education in America, 1920s–50s; also advertising of yeast in American newspapers, 1920s–30s

Eugenics Society: Files on US eugenics societies, correspondence with North American eugenicists, 1920s–50s; files pertaining to ‘Homes in Canada’ evacuation scheme, World War II

Family Planning Association: ‘Foreign countries’ files include USA and Canada, 1950s–60s; also correspondence with and other material about individuals active in US birth control movement, from 1920s

Maj–Gen Sir Leonard Rogers: Material relating to leprosy in Hawaii, USA, 1920s–30s

‘Insulin Controversy’: Copy documents and notes (1957) re controversy over responsibility for discovery of insulin, Toronto, Canada, 1922

Wellcome Bureau of Scientific Research: Correspondence and reports from BW&Co USA Experimental Research Laboratories in Tuckahoe, 1925–33

Lord Dawson of Penn PRCP: Miscellanea file includes cutting relating to his visit to St Paul, MN, 1925, and typescript of statement of the American Medical Association respecting the tentative health programme presented at National Health Conference in Washington, 20 Oct 1938

Charles Henry Brent, Bishop of Western New York: letter to Sir Thomas Barlow, in one of Barlow’s scrapbooks, 1926

– Printed memorial publication marking Brent’s death, 1929

[Francis] Peyton Rous, pathologist: letter to the medical researcher and historian Dr. Henry Peter Bayon on transplanting tumours in chickens, 1927

Ronald Hare: Various materials relating to his period at the Connaught Laboratories, University of Toronto, Canada, 1936–46, and his involvement with Canadian Government penicillin production; file on 1928 influenza epidemic in North West Canada

International Physiological Congresses: File re Congress at Boston, MA, USA, 1929
Henry Havelock Chown: *Medical Men and Medicine in Early Years in Western Canada*, paper read to Canadian Medical Association, 1930

Voluntary Euthanasia Society: Correspondence with Euthanasia Society of America, 1930s–50s, and with Prynce Hopkins Fund of San Francisco, 1960s–70s

Carlos Paton Blacker: Diary notes on visits to USA, correspondence with US colleagues in birth control movement, 1930s–70s

Sir James Craigie: Reports, papers, correspondence etc, produced while working at Connaught Laboratories, University of Toronto, Canada, 1930s–50s

Sir Robert Macintosh: Correspondence with anaesthetists in Canada and USA, 1960s–70s; diaries of visits, 1930s–60s

Charles Joseph and Dorothea Waley Singer: Correspondence with institutions and colleagues in USA, 1930s–50s

Robert George Ranyard West: Correspondence with individuals, organisations, publishers etc in USA and Canada on his various interests, 1930s–60s

Sir Christopher Andrewes: Travel journals re visits to, conferences in, USA, 1930s–60s

Rockefeller/Eugenics: Copy items from Rockefeller Family Archives (North Tarrytown, NY, USA) re support for English Eugenics Society, 1930s–40s

Professor Hans Grünberg: geneticist: correspondence, 1930s–82, with North American colleagues and re visit to US as Fulbright Fellow, etc

Harvey Williams Cushing, U.S. surgeon: 2 letters to Professor F. Wood–Jones of the University of Melbourne, purchasing rare books, 1931

Guy Frederic Marrian: a little material on his period at the University of Toronto, 1930s; correspondence from his wife and daughters while evacuated to Canada, 1940–3

Archibald Malloch, Librarian of the New York Academy of Medicine: letter to Sir D'Arcy Power (1855–1941), mentioning Benjamin Bell, Joseph Lister, his own father, and a portrait of Dr. Harvey, 1934

Katherine Harman: diary kept during British Medical Association Round the World Tour, on which Mrs. Harman travelled with her husband Nathaniel Bishop Harman F.R.C.S., describing journey from Southampton to New York and across the USA via Washington, Chicago, Albuquerque, the Grand Canyon and Los Angeles to San Francisco, 1935

Cancer Research Campaign, formerly British Empire Cancer Campaign: Files re research apparatus and chemicals imported from North America, 1948–58; material relating to donation and importation of Cobalt 60 Beam Therapy Unit from Canada to Mount Vernon Hospital, Middlesex, 1952–6; file on the Ontario Cancer Committee of the Department of Health, Canada, 1935–48

R A McCance and Elsie Widdowson: Diary of Widdowson's Study Visit to observe Research and Teaching in Nutrition and Dietetics in the USA and Canada, Apr–Jun 1936

Philip D’Arcy Hart: files relating to trips to Canada and the USA, on matters to do with tuberculosis, some general travel materials, 1940s–2000s

Sir Edward and Lady Mellonby: Files re Abraham Flexner Lectureship at Vanderbilt University, and visit to USA, 1947, lectures given in Canada, 1938

William Walters Sargant: Two long stays in USA, 1938–9 and 1947–8, many subsequent visits: articles, lectures, etc, comparing psychiatry in Britain and US, 1950s–60s; involved in case of Patty Hearst, kidnapped and ‘brainwashed’, 1970s
Health Visitors Association: Report on educational tour of Canada and USA, 1939  
SA/HVA/D.5/10

Frederick Gordon Spear: Report of a visit to USA and Canada, 1940, on behalf of British Empire Cancer Campaign  
PP/FGS/E/30

Sir Ernst Boris Chain: Correspondence with institutions and individuals in USA, consultancies for US bodies, visits, 1940s–70s  
PP/EBC

Grantly Dick–Read: Correspondence about 'natural childbirth', with mothers and medical professionals in USA, 1940s–50s, and mothers in Canada; lecture tours to USA and Canada, 1940s–50s  
PP/GDR

Francis Crick: Correspondence with colleagues in USA and Canada, also lecture tours, connections with various institutions, etc, 1940s–90s  
PP/CRI

Dame Honor Bridget Fell: Files relating to membership of US societies, attendance at conferences, correspondence with individuals, institutions, journals, etc in USA and Canada, 1940s–70s  
PP/HBF

Charles McMoran Wilson, Lord Moran: Ephemera and correspondence re visits to USA and Canada (as Churchill’s physician and in a private capacity), 1940s–50s, correspondence with US publishers of Struggle for Survival, 1950s–60s  
PP/CMW

Sir William Paton: Attendance at meetings in the USA, including of Washington Submarine Escape Committee correspondence with colleagues, institutions (including Wellcome US operations), etc, 1940s–80s  
PP/WDP

John Winston Gallop: Material re cyclotrons in USA, 1940s–50s  
GC/160/C

Napsbury Hospital: Reports of Group for the Advancement of Psychiatry, Topeka, Kansas, USA, 1948–55, and reports on service psychiatry by US Army Officers, 1940s  
GC/135

Sir RA Peters: British Anti–Lewisite: Correspondence and reports from US bodies and individuals re BAL research, 1940s–50s  
GC/197

Constance AP Wood: Various materials re visits to and papers given in USA, 1940s  
GC/95

Norman Heatley: Material relating to his visit to USA re penicillin production, 1941–2, and later work on secretin in USA institutions, correspondence with North American colleagues, etc, 1950s–70s  
PP/NHE

Forrest Fulton: Papers relating to his work with Medical Research Council Typhus Committee, 1942–1946, include material from USA, including Report of US Typhus Commission at Dachau, 1945  
GC/177

Valentina P. Wasson, paediatrician: letter, 1943  
MS.7800/4

Robert Henry Stewart Thompson: Travel diary, and other material, relating to visit to USA and Canada, 1943  
PP/RHT

Professor Donald Hunter: Visit to USA to investigate industrial health for MRC, attend Industrial Health Congress, 1945–6  
PP/HUN/D.2/2-3
